During this period they have manufactured a vast number of instruments of all styles; and wherever they have been exhibited in competition with the instruments of other makers, they have invariably taken the highest premium.

At the last

The attention of the public and the trade is invited to our NEW SCALE SEVEN OCTAVE ROSEWOOD PIANO-FORTES, which for volume and purity of tone are unrivalled by any hitherto offered in this market. By the introduction of improvements we make a still more perfect Piano-Forte, and by manufacturing largely, with a strictly cash system, are enabled to offer these instruments at a price which will preclude all competition.

Pianofortes.

CHICKERING & SONS' PIANOFORTE MANUFACTORY, BOSTON, MASS.

The building is a hollow square of the following dimensions: 254 feet front and rear, and 262 feet on each side, and 60 feet deep all round.

GOTTSCHALK'S

Reasons for choosing the Chickering Pianos:

"I consider them superior to any in the world. They are unrivalled for their qualities, and for the harmonious roundness of their tone. There is a perfect homogeneity throughout all the registers. The upper notes are remarkable for a clearness and purity which I do not find in any other instrument, while the bass is distinguished for power without harshness, and for a magnificent sonority."

WEHLI.

This Great Pianist's reasons for choosing the Chickering Pianos:

"I have played upon them constantly since my arrival in America, my attention having been directed to them by the European reputation of your house, and have thoroughly tested them in every particular. I have never known so noble a tone; it yields every expression that is needed in music, and its quality is capable of change to meet every sentiment. This is a rare power, and is derived from the perfect purity of its tone, together with its sympathetic, elastic, and well-balanced touch. In depth, volume and power of tone it is equal to all demands, and however it is forced, it loses none of its purity of tone, while in all the fine shades of sentiment, in the power of dramatic coloring, and in passages of the greatest delicacy, it is all that the most exigent pianist can desire, and its softest whisper can be heard in the remotest corners of the largest halls; even when crowded. I play upon them with satisfaction, conscious that whatever ability I may possess can but be displayed in their use, and I believe that in every particular your pianos are, for the reasons given, superior to any seen in this country or in Europe."

RICHARD HOFFMAN SAYS:

"I play upon Chickering's Pianos solely, both in public and private. I use them myself, and recommend them over all others."

Richard Hoffman's endorsement of Chickering's Pianos, is fully sustained by

London, July 15, 1866.

"Having played upon a Piano-forte made by Messrs. CHICKERING & Sons, of Boston and New York, I have much pleasure in testifying to its general excellence. For sweetness and brilliancy of tone, delicacy of touch, and magnificent power for concert purposes, I consider it a really GRAND PIANO-FORTE, and DECIDEDLY THE BEST I HAVE SEEN OF AMERICAN MANUFACTURE."

From the New York Tribune, Dec. 31, '66.

"The Chickering piano has peculiarities of tone, which distinguish it from that of any other piano. Its scale is finely graduated in quality and power throughout the entire range of octaves, securing a perfect equality in all the registers. In its singing power it has hardly an equal, and its sympathetic character is such that a good artist can produce every shade of sentiment and color that his fancy or feeling may suggest, or the just interpretation of the works of others may demand. The touch of the Chickering piano is prompt and elastic, combining the greatest delicacy with sentiment and power. The workmanship is of the very best, as the enormous capital of \$2,000,000 invested in the business, insures the finest thoroughly seasoned materials and superior workmanship. This piano has stood the test of nearly 50 years of public criticism: 30,000 of them have found homes in every quarter of the globe."

LOUIS PLAIDY,

The great Piano Teacher of Leipzig, Germany, writes:

"I hereby assert and affirm that the Grand Piano-forte of Chickering & Sons, of Boston and New York, which I have tried and examined, is one of the finest instruments of the class that ever came to my notice."

BROADWOOD & SONS,

Of London, the greatest Piano-forte Manufacturers in the world, write:

"Tell them we were delighted with their Grand Piano-forte—as good an instrument, we think, as was ever turned out, both in touch and tone."

COLLARD & COLLARD,

Of London, one of the most celebrated Piano Firms in the world, write:

"It is, we consider, not merely the best instrument of American manufacture that we have tried, but one of the finest Pianofortes that has ever come under our observation, and the Messrs. Chickering may well be proud of having turned out from their manufactory an instrument which, for touch, quality, power and workmanship, it would be very difficult to surpass in any part of the wide world."

THE CHICKERING PIANOS

Contain every important improvement of modern times, and are manufactured of the best seasoned materials by the most skillful workmen, under the strictest supervision. They combine the rarest excellence of tone and touch, with external beauty and finish, and a durability under every circumstance, that has never been exceeded. The Chickering Pianos are warranted for Five Years.

Prices just and reasonable. Illustrated Catalogues and Price Lists sent on application.
